JS-Pet_Project-Part_1

Project Name : Quote of the day.

This project allows you to find a quote that will motivate and inspire you according to your mood for the day. It is a way to brighten people's day.

Must Have Features

1. Display a new quote each time user runs the project. This is the main feature of the project, which provides users with daily dose of motivation.
2. User get to select a mood and quotes are displayed from a list of quotes stored in that mood category. Every time the user runs the project a new quote is be displayed.

Should Have Features

1. The project should have a clean and user-friendly interface.
2. The displayed content should be visually appealing to the users.
3. A "New Quote" button will be added that will allows users to manually refresh the displayed quote.

Nice-to-Have Features

1. A "Clear" button to undo selection.
2. A "Add New Quote" button to let users create a list of their personal favorite quotes.

Additional Notes:

The "Quote of the Day" project offers a simple way to inspire and motivate users on a daily basis. This project will have a set of well-organized collection of quotes categorized by different moods for a better user experience with a visually appealing content display.
